

03 February 2026

The Smarter Web Company PLC
(“The Smarter Web Company” or the “Company”)

First Day of Dealings

The Smarter Web Company (LSE: SWC | OTCQB: TSWCF | FRA: 3M8) is pleased to announce that the admission of its entire share capital, being 350,237,093 ordinary shares of £0.001 each (“**Ordinary Shares**”), to the Equity Shares (Commercial Companies) category of the UK Financial Conduct Authority’s Official List and the commencement of trading on the London Stock Exchange’s Main Market for listed securities will take place at 8:00 a.m. today (“**Admission**”). The Ordinary Shares will trade under the ticker ‘SWC’ and ISIN GB00BPJHZ015.

The Company’s Ordinary Shares have now ceased trading on the Access Segment of the Aquis Stock Exchange Growth Market.

The Company’s Ordinary Shares will continue to trade on the OTCQB Venture Market in the United States and will remain accessible to German investors through the Company’s unsponsored depositary receipt listing on the Frankfurt Stock Exchange.

A copy of the prospectus is available on the Company’s website at <https://www.smarterwebcompany.co.uk/> and has been uploaded to the National Storage Mechanism at <https://data.fca.org.uk/#/nsm/nationalstoragemechanism>.

Andrew Webley, CEO of The Smarter Web Company, commented:

“Seeing our UK-born business commence trading on the Main Market of the London Stock Exchange will be a milestone of which I am immensely proud. It reflects not only how far we have come since our start-up days, but also the strength, discipline and maturity of the Company today. We remain committed to building a British success story that contributes meaningfully to the UK economy, showcases the ambition of the UK’s entrepreneurial spirit, and demonstrates the role that Bitcoin, as a form of digital capital, can play in supporting the growth of modern businesses.”

About The Smarter Web Company:

The Smarter Web Company offers web design, web development and online marketing services. Clients pay an initial fee, an annual hosting charge and an optional monthly marketing charge. Growth opportunities exist for The Smarter Web Company around these existing services.

In addition to organic growth, the Company will progress an acquisition strategy targeting other businesses with a view to growing its number of clients and / or recurring revenue. The Smarter Web Company will only make acquisitions where the Directors believe the timing and opportunity is appropriate.

Since 2022, The Smarter Web Company has adopted a policy of accepting payment in Bitcoin. The Company believes that Bitcoin forms a core part of the future of the global financial system and as the Company explores opportunities through organic growth and corporate acquisitions is pioneering the adoption of a Bitcoin Treasury Policy into its strategy.

The Directors of the Company accept responsibility for the contents of this announcement.

Important Notice:

The Smarter Web Company Plc holds treasury reserves and surplus cash in Bitcoin. Bitcoin is a type of cryptocurrency or cryptoasset. Whilst the Board of Directors of the Company considers holding Bitcoin to be in the best interests of the Company, the Board remains aware that the financial regulator in the UK (the Financial Conduct Authority or FCA) considers investment in Bitcoin to be high risk. An investment in the Company is not an investment in Bitcoin, either directly or by proxy. However, the Board of Directors of the Company consider Bitcoin to be an appropriate store of value and growth for the Company's reserves and, accordingly, the Company is materially exposed to Bitcoin. Such an approach is innovative, and the Board of Directors of the Company wish to be clear and transparent with prospective and actual investors in the Company on the Company's position in this regard.

The Company is neither authorised nor regulated in the conduct of its business by the FCA. And there is currently limited regulation of cryptocurrencies (such as Bitcoin) in the UK. As with most other investments, the value of Bitcoin can go down as well as up, and therefore the value of the Company's Bitcoin holdings can fluctuate. The Company may not be able to realise its Bitcoin exposure for the same as it paid in the first place or even for the value the Company ascribes to its Bitcoin positions due to these market movements. An investment in

the Company is not protected by the UK's Financial Ombudsman Service or the Financial Services Compensation Scheme.

Nevertheless, the Board of Directors of the Company has taken the decision to invest in Bitcoin, and in doing so is mindful of the special risks Bitcoin presents to the Company's financial position. These risks include (but are not limited to): (i) the value of Bitcoin can be highly volatile, with value dropping as quickly as it can rise. Investors in Bitcoin must be prepared to lose all money invested in Bitcoin; (ii) the Bitcoin market is largely unregulated. There is a risk of losing money due to risks such as cyber-attacks, financial crime and counterparty failure; (iii) the Company may not be able to buy or sell its Bitcoin at will. The ability to buy or sell Bitcoin depends on various factors, including the supply and demand in the market at the relevant time. Operational failings such as technology outages, cyber-attacks and comingling of funds could cause unwanted delay; and (iv) cryptoassets are characterised in some quarters by high degrees of fraud, money laundering and financial crime. In addition, there is a perception in some quarters that cyber-attacks are prominent which can lead to theft of holdings or ransom demands. The Board of Directors of the Company does not subscribe to such a negative view, especially in relation to Bitcoin. However, prospective investors in the Company are encouraged to do your own research before investing.
